

BIRDS OF NORTH AMERICA

A PHOTOGRAPHIC ATLAS

A Great Blue Heron, a Wood Duck, a Baltimore Oriole, an Eastern Bluebird, or a Belted Kingfisher—which North American bird species is your favorite? In *Birds of North America: A Photographic Atlas*, Bruce M. Beehler provides the information and images you need to identify and enjoy each of the 1,144 amazing and diverse bird species recorded in the United States and Canada, including Hawaii and Alaska. Featuring more than 1,200 full-color photographs and illustrations and more than 700 range maps, this comprehensive reference provides both beginners and seasoned birders with important facts about each bird's ecology, behavior, seasonal movements, nesting biology, and conservation status.

Birds of North America gives bird-lovers everything they could ask for: The photographs and illustrations, selected and curated by Brian E. Small, one of America's most talented nature photographers, depict each species in its most beautiful plumage and natural habitat. The largest, most detailed, and most up-to-date range maps available anywhere provide invaluable insider information on the best birding hotspots. And the special sections rounding out the book offer helpful guidance on birding gear, field trip planning, critical resources, and conservation issues. This is the book for aspiring and veteran bird enthusiasts alike.

ABOUT THE AUTHORS

BRUCE M. BEEHLER

Ornithologist Bruce M. Beehler is a research associate in the Division of Birds at the National Museum of Natural History, Smithsonian Institution, and a scientific affiliate of the American Bird Conservancy. He

is the author of more than a dozen nature books, including *Birds of Maryland, Delaware, and the District of Columbia* and *North on the Wing: Travels with the Songbird Migration of Spring*.

BRIAN E. SMALL

Brian E. Small is one of North America's best known and most accomplished bird photographers, whose images grace more than fifty books.

PRAISE FOR *BIRDS OF NORTH AMERICA*

“This handsome book includes all four components needed to make a useful birder’s tool: legible and detailed range maps, more than a thousand beautiful images of the birds, a brief but informative text for each species, and some great guidance on the ins and outs of birding.”

—Gary R. Graves,

CURATOR OF BIRDS, NATIONAL MUSEUM OF NATURAL HISTORY, SMITHSONIAN INSTITUTION

“This is a work that makes our magnificent bird fauna accessible to users of any level of expertise.”

—Michael O’Brien,

VICTOR EMANUEL NATURE TOURS
